

Why Take the Paris Pledge?

When they meet in Paris for the 2015 UN Climate Talks, Interfaith Power & Light would like to see global nations commit to 50% reductions in global warming pollution by 2030, towards a goal of being carbon neutral by 2050. When you sign the Paris Pledge today, we will add your name to the list of those pledging to do the same in their own homes. UN Secretary-General Ban Ki-moon has called on government and civil society leaders to bring bold initiatives and proposals to drastically lower climate emissions, saying, "I challenge you to bring to the Summit bold pledges. Innovate, scale up, cooperate, and deliver concrete action that will close the emissions gap and put us on track for an ambitious legal agreement." The Paris Pledge was announced by IPL's Rev. Sally Bingham in response to this challenge.

Please sign the Paris Pledge today to show the world that America's faith community is leading by example. Pledge on flip side. Hand off to IPL organizers where you are located. Thank you for being a climate champion! Congregations and individuals can take the pledge.

Take the Paris Pledge

In an act of solidarity with global leaders and nations at the 2015 UN Climate Talks in Paris, **I pledge to reduce my carbon pollution 50% by 2030 and to become carbon neutral by 2050.** I believe a brighter future is within reach -- a world with an economy that works for people and the planet, a world safe from the ravages of climate change, a world with good jobs, clean air and water, healthy communities, and a world where people of faith everywhere act as stewards of Creation and begin to build a new relationship with the Earth.
